Summary

Full-stack software developer who enjoys learning new technologies and loves creating a wide range of functional applications. Recently earned a certificate in full stack web development from the University of Washington. Honed skills in back-end development technologies such as Node.js, SQL, MongoDB, and React. Achieved proficiency in HTML5, CSS3, JavaScript, Bootstrap, APIs, and JQuery. Notable problem solver who finds satisfaction in producing clean code that peers can quickly read and understand. Ecstatic to use new innovative development tools on useful real world projects.

Technical Skills

Languages: HTML5, CSS3, JavaScript, SQL
Applications: MongoDB, Express.js, React, Node.js
Tools: Visual Studio Code, GitHub, Slack, NPM, MySQL Workbench

Projects

Gif Your Mood
> A collaboration with 3 other contributors using mvp development, git workflow, and project manager.
> > Repository: https://github.com/Kopelson/gifYourMood
> > Deployment: https://kopelson.github.io/gifYourMood/

Bear Share
> This app allows users to buy and sell teddy bears. Users are also able to create an account, search for a bear, message other users, and leave reviews!
> > Repository: https://github.com/jre23/bear-share
> > Deployment: https://nameless-plains-06669.herokuapp.com/

Ajax Weather App
> This weather app focuses on using API's to retrieve weather data for cities across the United States.
> > Repository: https://github.com/Kopelson/ajaxWeatherApp
> > Deployment: https://kopelson.github.io/ajaxWeatherApp/

Experience

TierPoint- Operations Technician II
> Received recognition from multiple clients on positive demeanor and timeliness in stressful computer related situations.
>
> Worked with Microsoft's Power App technology to build a custom app that increased productivity by making a static database more accessible via mobile application.

Education

Washington State University -Coding Boot Camp Certificate
 Developed a wide range of web based technologies to create a professional understanding in full stack web development.

Personal study - Head First HTML/CSS, and JavaScript
 Solidified understanding in front end web development.
